PRODUCT BULLETIN!

Plusoptic Transceivers 100% compatible with Sonicwall TZ Series (Gen7)

We have conducted rigorous testing and our Plusoptic transceivers have been approved to work flawlessly with the new Gen7 product, as well as being 100% backward compatible with Gen 6 and earlier versions.

Why Plusoptic?

- Exclusively distributed by Exertis.
- Trusted and Channel Loyal - We never sell directly to end-users.
- Quality Focused - Our products match OEMs in quality as they come from the same manufacturing facilities.
- UK-based support and a 3-year warranty.
- Compatibility Guaranteed - Our products are 100% compatible with over 100 vendors.
- High Margin - We're the lowest cost "tier one" third-party transceiver provider, delivering more margin to our reseller partners.
- More Margin! - Deal registration on orders over £500 and exclusive rebates for our partners.
- Fast Lead Times - With Exertis's next-day stock availability and local UK and extensive global warehouses, expect speedy delivery of the products you need.
